### WOMAN WITH HEAD BATTERED IS FOUND ALONE IN A HOUSE

Authorities Say She Told Police-  
man Benito Sals Hit Her With a  
Brick; Reluctant to Give In-  
formation.

Residents of the neighborhood today called by D. H. Charns to the house at 1618 South Third street, occupied by Benito Sals and his brother. He attended an injured woman. Benito Sals, a man of 30, was found in the house with her head battered and weak from loss of blood.

The physician dressed the woman's wounds and then reported the case to the police. The house is outside the city and Chief Darnbach notified the sheriff's office. Policeman Paolo Lujan went to the place with Under-sheriff Luis Lewis.

The woman at first refused to talk. Then, according to the authorities, she reluctantly informed Lujan that Benito Sals hit her with a brick. After which she is alleged to have refused to furnish any information and refused to add anything to the meager statement.

Search for Sals resulted in his arrest in Baraboo a short time after the authorities set to work on the case. He, too, told Under-sheriff Luis Lewis, it is alleged, that he was skulking with the brick and that the injury to Benito Sals was accidental.

### Secure an Inspector For Northern Cattle Ranges of New Mexico

Through the New Mexico Cattle and Horse Raisers' association, with which they are affiliated, the Southern New Mexico Stockmen's association has secured for Mesa and surrounding counties an additional salary. Fred Crowder of Warren has been recommended by the cattle board to act as special inspector in Mesa county and the adjacent country. Mr. Crowder came

mission in fact, reads for the northern half of the state.

For some time the cattlemen of Warren and Western Montana and Idaho have felt the need of an inspector for that section. For some time the cattlemen of Warren and Idaho have felt the need of an inspector for that section. For some time the cattlemen of Warren and Idaho have felt the need of an inspector for that section.

This need has been such that the northern association, organized to pay the salary of the inspector for that district for the next few months. The first of the week the secretary of the New Mexico Cattle and Horse Raisers' association was wired, asking that it arrange if possible with Mr. Crowder of the board for the appointment of Mr. Crowder. Thursday morning M. A. Van Houten of Phoenix, president of the local organization, received from Mr. Miller, secretary of the state body in Albuquerque, the commission from the secretary board. Mr. Crowder is authorized to go to work at once and is assured of the cooperation of the other inspectors who are directly employed by the board.

### FEDERAL AID WILL ENABLE MANY BOYS TO ATTEND COLLEGE

Allowances Given for Attending  
Drills at Agricultural Institu-  
tion Expected to Bring In Many  
Worthy Students.

Agricultural College, N. M., Aug. 4.—New Mexico boys who plan to attend college during the coming year, and who are wondering just how they will get through school on a limited money allowance, will be interested to know that the New Mexico College of Agriculture and Mechanic Arts, through the assistance of the United States government, will be in a position to offer a democratic attraction in the way of financial help.

The bill which recently passed over the signature of the president, requiring the service of the United States army, directs the aid to be given to the students in agriculture and mechanic arts colleges who will take military drill three times a week. This will mean a saving in clothing alone of about \$50 a year to the boys attending the New Mexico Agricultural college, from which they are already very low educational cost for the year. While the war department is overburdened with work just at present, it is believed the legislation will be in actual operation before Christmas.

Another important provision of the bill is that boys who will drill five times a week during their senior and senior year of the college course, will receive a salary of \$1 a month in addition to their uniforms. Upon graduation they will receive a bonus of \$100, as awarded by the president of the United States to a military cadet for a period of six months at a salary of \$100 a month.

The provisions of the bill make a very light prospect for the boys attending the New Mexico Agricultural college, especially in view of the fact that the college is in a position to offer a democratic attraction in the way of financial help.
